Work Experience

Animator & Storyboard Artist | "Motel Fear" Short Film *September 2024 - April 2025*

- Executed 110 seconds of character-driven animation, utilizing **pose-to-pose** techniques to emphasize weight, flexibility, and pushed lines of action.
- Developed a cinematic **100-panel storyboard**, which was translated into an animatic with a focus on dynamic timing, unique composition, and clear continuity.
- Maintained production momentum by managing timelines and scene trackers to ensure **100% of deadlines** were met through the production cycle.

Lead Lighting Artist & Rigging Tool Developer *September 2023 - April 2024*
"Miss You" Short Film

- Directed a **13-member team** to deliver high-quality lighting, establish modular lighting sets and documentation that streamlined the rendering pipeline.
- Engineered **custom animation pickers** to optimize character performance workflows, significantly reducing the time required for animators to access complex controls.
- Collaborated directly with the **Rigging department** to create and refine character-animation tools, ensuring zero-latency performance for the animation team.

Operations Administrator (Animation Lead) *May 2023 - August 2023*
Canadian Automobile Association

- Modernized onboarding by designing and implementing **dynamic 2D animations** to improve employee engagement and facilitate learning.

Education

Animation Mentor *May 2025 - Present*
Character Animation Program

- Perfected animation skills under **Boola Robello** (AN05) and **Marek Kochout** (AN06), with a focus on dynamic character performances, efficient animation workflows, and cinematic immersion.

Sheridan College *September 2021 - April 2025*
Bachelor of Animation, Honours (3.72 out of 4 GPA)

- Collaborated with classmates to refine animation pipelines, deliver high quality film sequences, and apply the 12 Principles of Animation.

Skills

Specialization

- Keyframe animation, focusing on **weight, expressive posing, and lines-of action.** Expertise in the **12 Principles of Animation** for both 3D character acting and body mechanics.

Production & Collaboration

- **Production Leadership:** Experience in managing 13+ member teams and overseeing project timelines via Gantt charts and scene trackers. **Collaboration:** Proven track record of partnering with Rigging teams to develop high quality rigging tools with zero latency.

Software

- **Autodesk Maya** (Primary), Unreal Engine (Animation Integration), Blender (Character Animation) Nuke (Rack Focus, Colour Grading), Davinci Resolve (Video Stabilization), Procreate (Character Sketches), SyncSketch (Review pipeline).
